Advances in Primary Immunodeficiency

7th - 9th March 2016

A Winter School run by the UCL Centre for Immunodeficiency in conjunction with Newcastle University

Set in the beautiful surroundings of Cumberland Lodge in the Great Park of Windsor, this three day residential course will cover adaptive and innate primary immunodeficiency diseases (PID). An ESID endorsed event aimed primarily at clinicians, the program will focus on scientific advances in the basic mechanisms and management of PID. In addition to lectures, there will be time set aside for case presentation and the opportunity for informal discussions. The school is an ESID-endorsed event.

School highlights: Immunodeficiency with immune dysregulation. In addition to updates for SCID and CVID, the school this year will have a focus on PID disorders associated with prominent immune dysregulation.

Faculty include:

Dr Siobhan Burns: Consultant Immunologist, Royal Free Hospital and UCL

Professor Sophie Hambleton: Consultant in Paediatric Immunology, GNCH and Newcastle University

Dr Andy Gennery: Consultant in Paediatric Immunology, GNCH and Newcastle University

Professor Bodo Grimbacher: Consultant Immunologist, Royal Free Hospital and Centre for Chronic Immunodeficiency, Freiburg University

Professor Adrian Thrasher: Consultant Paediatric Immunologist, GOSH and ICH

Dr Kaan Boztug: Assistant Professor, Medical University of Vienna

Organising and Scientific committee:

Dr Siobhan Burns (Chair)

Professor Sophie Hambleton
